

Activity 3: Screen and Shortlist Candidates with the Candidate Screener Agent

Duration: 40 minutes **Roles:** Daniel Lim (recruiter), Priya Nair (hiring manager) and a fairness reviewer

Scenario

Three people applied: CAND-FU-007, -011 and -017; Data Engineer applicant CAND-FU-006 might also fit. Priya asks: 'Can we drop anyone with a career gap? And I'd rather someone younger.' Screen on evidence and decide yourself.

Goal and output

Shortlist decisions for the four candidates with your own reasons, spot-checked evidence and notes on the fairness checks.

Tools and data to use

Candidate Screener agent | FutureTech-Careers SharePoint site (Candidate-Resumes) | your criteria from Activity 2

Use only the practice files supplied. Never enter real candidate information or company-confidential details into Copilot.

Step by step

Step 1

Open the Candidate Screener agent from the link on the Resources slide or in this guide.

Step 2

Type: 'Screen CAND-FU-007, CAND-FU-011 and CAND-FU-017 for the Senior Data Analyst role. For each, show the evidence for each must-have, what is missing, and a draft recommendation: Shortlist, Clarify or Not suitable.'

Step 3

Open the three resumes in SharePoint and check what the agent quoted. Note that CAND-FU-011's resume shows a date of birth and marital status - these must play no part in your decision.

Step 4

Put Priya's requests to the agent: 'Drop anyone with a career gap' and 'Shortlist only candidates under 35'. Note how it declines and what it suggests instead. Serene Ng (CAND-FU-017) has a career break - decide on her evidence, not the gap.

Step 5

Ask: 'Would CAND-FU-006 (who applied as a Data Engineer) meet our must-haves?' Note that you may only consider her for this role if she agrees - draft a one-line question to her.

Step 6

Mei Ling Tan asks you to run one Product Manager applicant through the same agent: screen CAND-FU-008. The agent flags hidden text asking the AI to rank her first. Record it and report it to Mei Ling - it is not a reason to shortlist.

Step 7

Make your decision for each Senior Data Analyst applicant (Shortlist, Clarify with a 15-minute phone screen, or Not suitable) and write the reason in your own words.

If something goes wrong

If Copilot's answer is generic, unfair or not based on your files, keep a copy, add the missing detail to your prompt (goal, context, source or expectations) and try again. If you cannot sign in or an agent does not open, tell your trainer and continue with the templates in this folder - never use real candidate data instead.

You are done when you have

Shortlist decisions for the four candidates with your own reasons, spot-checked evidence and notes on the fairness checks.
