

Activity 7: Practise the Interview: Copilot Plays the Candidate, Then Role-Play

Duration: 45 minutes **Roles:** You as Priya Nair (interviewer); then interviewer, candidate and observer in threes

Scenario

Priya has never run a structured interview and the real ones are on Wednesday. She rehearses with Copilot playing a fictional candidate, Alex Lee - never the real applicants, so nobody pre-judges Serene or Zhi Wei.

Goal and output

A practice log with Copilot's feedback on your interviewing, and a live role play with observer notes.

Tools and data to use

Copilot Chat | your interview kit from Activity 5 | candidate card and observer sheet

Use only the practice files supplied. Never enter real candidate information or company-confidential details into Copilot.

Step by step

Step 1

PART A - Paste the simulation prompt from the Lab Prompt Pack. Copilot plays 'Alex Lee', a fictional practice candidate for Senior Data Analyst who gives some vague, team-level answers.

Step 2

Give your opening (welcome, who is on the panel, 45 minutes, note-taking) and ask your first core question from the kit.

Step 3

When an answer is vague ('we rebuilt the dashboard'), ask a neutral follow-up such as 'What did you personally do?' Note what changed.

Step 4

After four questions, type 'End interview. Give me feedback on my interviewing: where did I lead the candidate, miss a follow-up, or run out of time?'

Step 5

PART B - In threes, take the roles of interviewer, candidate (use the candidate card) and observer.

Step 6

Run a 10-minute interview: opening, core questions, at least two neutral follow-ups and a clear close with next steps.

Step 7

The observer notes leading questions, missed follow-ups and time drift. Debrief from all three roles, then swap.

- simulation_log.txt
- candidate_card.txt
- observer_notes.csv

If something goes wrong

If Copilot's answer is generic, unfair or not based on your files, keep a copy, add the missing detail to your prompt (goal, context, source or expectations) and try again. If you cannot sign in or an agent does not open, tell your trainer and continue with the templates in this folder - never use real candidate data instead.

You are done when you have

A practice log with Copilot's feedback on your interviewing, and a live role play with observer notes.
