Microsoft's Recruiting Scenario in Six Steps

1

Create the job description

COPILOT IN WORD

"Write a job description for an Accounting Director role with 5+ years of experience."

2

Develop interview questions

COPILOT IN WORD

"Generate 5 interview questions for an Executive Assistant with 10+ years of experience."

3

Research compensation

COPILOT CHAT / RESEARCHER

"Provide a typical salary range for an Accounting Director role with 5+ years of experience in these five cities."

4

Draft the offer letter

COPILOT IN WORD

"Draft a customizable template for an offer letter."

5

Create onboarding materials

COPILOT CHAT

"Develop a 3-month plan to onboard a new hire."

6

Introduce the new hire

COPILOT IN OUTLOOK

"Draft an email to introduce Jane to their new team based on this information from their resume."

Measure the benefit: Onboarding time, Cost per hire, Retention rate, Issue resolution time, Employee Net Promoter Score (eNPS). [Open the Microsoft scenario](#)

Your Recruitment Agents

Candidate Screener	COURSE AGENT	Compares resumes in SharePoint with the job requirements and drafts a shortlist with the evidence for and against each candidate.
Question Designer	COURSE AGENT	Drafts an interview kit: questions for each requirement, follow-up questions and a 5/3/1 scoring guide.
Evidence Scorer	COURSE AGENT	Reads interview notes, pulls out what the candidate actually said and suggests scores for the panel to discuss.
Feedback Coach	COURSE AGENT	Drafts respectful, specific feedback for candidates with one clear suggestion for next time.
Researcher	BUILT INTO COPILOT	Researches a question across the web and your work files and returns a sourced report - used here for salary benchmarks and market context.
Analyst	BUILT INTO COPILOT	Works through data such as a candidate tracker spreadsheet and explains the numbers - used here for pipeline and time-to-hire questions.

Open an agent, ask in plain English, review the draft - you make the decision. Links are in the Learner Guide and Lab Prompt Pack.

The Practice Data: SharePoint Hiring Sites

105 practice resumes, 15 HR policy documents and 5 approved job descriptions. All records are invented for training.

Every resume is invented for training. One hides text asking the AI to rank it first - you will see the Candidate Screener flag it.

Our Case Study: FutureTech Solutions Hires a Senior Data Analyst

THE COMPANY

A 180-person Singapore software company selling subscription analytics products to retailers.

WHY THEY ARE HIRING

The only senior analyst resigned. Two monthly revenue reports went to the finance team with numbers that did not reconcile, and the product team has stopped trusting the dashboards.

THE HIRING MANAGER'S BRIEF

"I need someone who checks the numbers before they go out, can explain them to finance in plain English, and can bring my two junior analysts up to speed. Ideally young and hungry - a digital native." - Priya Nair

ROLE

Senior Data Analyst

START DATE

1 December

PAY BAND

SGD 8,500 - 10,500 per month (internal pay band)

JOB DESCRIPTION

JD - Senior Data Analyst (FutureTech-Careers site)

Spot the problem in the brief? You will fix it in Activity 2.

Meet the Hiring Team and the Applicants

Priya Nair
HEAD OF ANALYTICS

Hiring manager and interview panel chair. Has never run a structured interview.

Daniel Lim
HR BUSINESS PARTNER

Runs the hiring process with Copilot - the role you play in most activities.

Ravi Kumar
LEAD DATA ENGINEER

Panel member who owns the skills questions.

Mei Ling Tan
HEAD OF PEOPLE

Approves the shortlist and the offer; receives any red flags.

THE APPLICANTS (PRACTICE FILES IN SHAREPOINT)

CAND-FU-017	Serene Ng	Senior Data Analyst	11 years; strong data-quality skills; a career break; her key achievement is shared with a team of four.
CAND-FU-007	Zhi Wei Chua	Senior Data Analyst	11 years; strong tools list, but every achievement is described at team level.
CAND-FU-011	Marcus Neo	Senior Data Analyst	6 years; resume lists date of birth and marital status; little evidence of owning a report.
CAND-FU-006	Deepa Quek	Data Engineer	Applied for a different role; strong data-quality result; may be considered only with her agreement.
CAND-FU-008	Anitha Wang	Product Manager	Different role; her resume hides text telling the AI to rank her first.

The Hiring Round, Week by Week

Each activity is the next step in this hiring round - your outputs carry forward.

Write Better Prompts: Goal, Context, Source, Expectations

1

GOAL

What you want Copilot to produce - for example, six interview questions.

2

CONTEXT

Why you need it: the role, the hiring stage and who will use the result.

3

SOURCE

Which information to use - for example, the approved job description in SharePoint.

4

EXPECTATIONS

Format, length and tone - plus the fairness rules Copilot must follow.

WEAK PROMPT

"Give me interview questions for a data analyst." (generic, not about your role)

STRONG PROMPT

Goal: 6 questions | Context: Senior Data Analyst, 1st round | Source: /JD | Expectations: one requirement each, no personal topics

The more Copilot knows about what you need, the better the draft.

YOUR JUDGEMENT

An approved tool is necessary, but you still share only what is needed.

04

You stay responsible

03

Answer uses your files

[Source: learn.microsoft.com](https://learn.microsoft.com)

Work Copilot versus public AI chatbots - good practice

KEY POINTS

- Work account
- Your access
- Public chatbots
- Your role

IN PRACTICE

- + Microsoft 365 Copilot works inside your company's Microsoft 365.
- + It only uses files you are already allowed to open.
- + Personal AI accounts are outside company control - never use them for candidates.
- + You are still accountable for what you type in and what you use.

An approved tool is necessary, but you still share only what is needed.

[Source: learn.microsoft.com](https://learn.microsoft.com)

Work Copilot versus public AI chatbots - worked example

SITUATION

Copilot only sees what you can see

[Source: learn.microsoft.com](https://learn.microsoft.com)

Copilot only sees what you can see - good practice

Permissions

Copilot follows the same access rights as you.

KEY RULE

Candidate data is only as private as the folder it sits in.

Candidate folders

Keep resumes in a restricted hiring site, not an open team site.

Over-sharing

If everyone can open a folder, Copilot can surface it to everyone.

Check

Ask IT or the site owner who has access before a hiring round starts.

Candidate data is only as private as the folder it sits in.

Turn a hiring goal into clear criteria

Source: www.tal.sg

Turn a hiring goal into clear criteria - good practice

Goal

The problem this hire must solve in the first year.

Must-have

Without it, the person cannot do the job.

KEY RULE

A criterion is fair only if you can explain why the job needs it.

Nice-to-have

Helpful, but can be learned or supported.

Decision owner

The named person who approves the shortlist.

A criterion is fair only if you can explain why the job needs it.

Singapore fair hiring basics - good practice

KEY POINTS

- Leave out
- Apply
- Records
- Speak up

IN PRACTICE

- + Age, sex, race, religion, nationality, marital or family status, disability.
- + Merit-based criteria, the same way for every candidate.
- + Keep interview notes and offer decisions.
- + Raise any discriminatory request with HR.

Fair hiring starts by showing each criterion is needed for the job.

Workplace Fairness Act: now and next

Source: www.mom.gov.sg

Workplace Fairness Act: now and next - good practice

Today

Follow the Tripartite Guidelines, the Fair Consideration Framework and current law.

The Act

Adds legal protections and a dispute process.

KEY RULE

Always check the date on legal information, especially from AI.

Prepare

Review job ads, questions and grievance handling now.

Accuracy

Do not describe the Act as already in force until it is.

Always check the date on legal information, especially from AI.

Removing an age field does not remove
every way age can creep in.

04

You correct them

03

Copilot repeats them

Source: www.pdpc.gov.sg

Bias can sneak in through proxies - good practice

KEY POINTS

- Past hires
- Proxies
- Wording
- Fix

IN PRACTICE

- + If most past hires looked alike, 'like our best people' repeats that.
- + School, postcode, career gaps or 'digital native' can stand in for age or background.
- + Words like 'young', 'mature' or 'native speaker' signal bias.
- + Go back to the job's must-haves.

Ask Copilot to explain its shortlist - good practice

Reason

Every recommendation must point to something in the resume.

KEY RULE

If you cannot explain a shortlist decision, it is not ready.

Challenge

Ask what evidence would change the recommendation.

Check

Open the resume and confirm the quoted evidence exists.

Decide

Record your decision and your own reason.

If you cannot explain a shortlist decision, it is not ready.

Activity 1: Sign In to Microsoft 365 Copilot and Set Your Ground Rules

ACTIVITY 1

CASE STUDY | WEEK 1 - MONDAY, 9:00AM

25 MIN

Priya Nair, Head of Analytics, needs a Senior Data Analyst by 1 December. Last year a manager pasted a candidate's CV into a free chatbot. Before this hiring round starts, set yourself up in Copilot and agree what must never go into it.

ROLES

You are Daniel Lim, HR Business Partner, working individually

TOOLS

Microsoft 365 Copilot Chat | training account from your trainer | HR-POL-02 in the FutureTech-Careers SharePoint site

OUTPUT

A working Copilot session, a first answer checked against the source, and the team's do-not-paste list.

Step-by-step instructions and checklist: [Learner Guide and activities/activity-01/](#)

Activity 1 - steps at a glance

Full click-by-click steps, prompts and tips are in the Learner Guide and the Lab Prompt Pack.

Activity 1 - done when

OK

Signed in with the work (training) account

OK

First prompt run and the answer read carefully

OK

At least one statement marked to check at source

OK

Do-not-paste list written for the hiring team

OK

Three table ground rules agreed

You will have: A working Copilot session, a first answer checked against the source, and the team's do-not-paste list.

Activity 2: Draft the Job Description and Screening Criteria in Word

ACTIVITY 2

CASE STUDY | WEEK 1 - MONDAY, 2:00PM

35 MIN

Priya's brief (hiring_brief.txt) asks for someone who checks the numbers, explains them to finance and coaches two juniors - 'ideally young and hungry, a digital native'. Turn it into a fair advert and screening criteria.

ROLES

Daniel Lim (HR) with Priya Nair (hiring manager), working in pairs

TOOLS

Copilot in Word | JD - Senior Data Analyst in the FutureTech-Careers SharePoint site | hiring_brief.txt

OUTPUT

A fair job advert, five must-haves and three nice-to-haves with the evidence for each, and an agreed shortlist rule.

Step-by-step instructions and checklist: [Learner Guide and activities/activity-02/](#)

Activity 2 - steps at a glance

DO

1

Draft the advert
in Word

2

Remove biased
wording

5

Set the
shortlist rule

CHECK AND KEEP

3

List the criteria

4

Agree the
evidence

Full click-by-click steps, prompts and tips are in the Learner Guide and the Lab Prompt Pack.

Activity 2 - done when

OK

Advert contains no age, 'digital native' or other non-job wording

OK

Five must-haves, each linked to a responsibility in the JD

OK

Evidence described for every criterion

OK

Keep/edit/drop decision recorded for each criterion

OK

Shortlist rule agreed and a reply to Priya drafted

You will have: A fair job advert, five must-haves and three nice-to-haves with the evidence for each, and an agreed shortlist rule.

Activity 3: Screen and Shortlist Candidates with the Candidate Screener Agent

ACTIVITY 3

CASE STUDY | WEEK 1 - WEDNESDAY

40 MIN

Three people applied: CAND-FU-007, -011 and -017; Data Engineer applicant CAND-FU-006 might also fit. Priya asks: 'Can we drop anyone with a career gap? And I'd rather someone younger.' Screen on evidence and decide yourself.

ROLES

Daniel Lim (recruiter), Priya Nair (hiring manager) and a fairness reviewer

TOOLS

Candidate Screener agent | FutureTech-Careers SharePoint site (Candidate-Resumes) | your criteria from Activity 2

OUTPUT

Shortlist decisions for the four candidates with your own reasons, spot-checked evidence and notes on the fairness checks.

Step-by-step instructions and checklist: [Learner Guide and activities/activity-03/](#)

Activity 3 - steps at a glance

Full click-by-click steps, prompts and tips are in the Learner Guide and the Lab Prompt Pack.

Activity 3 - done when

OK

Agent evidence checked against the actual resumes

OK

Priya's two requests declined with job-related alternatives noted

OK

Personal details in CAND-FU-011 ignored

OK

CAND-FU-006 considered only with her agreement; CAND-FU-008 flag reported

OK

Shortlist decisions made by you, with your own reasons

You will have: Shortlist decisions for the four candidates with your own reasons, spot-checked evidence and notes on the fairness checks.

Activity 7: Practise the Interview: Copilot Plays the Candidate, Then Role-Play

ACTIVITY 7

CASE STUDY | WEEK 2 - MONDAY

45 MIN

Priya has never run a structured interview and the real ones are on Wednesday. She rehearses with Copilot playing a fictional candidate, Alex Lee - never the real applicants, so nobody pre-judges Serene or Zhi Wei.

ROLES

You as Priya Nair (interviewer); then interviewer, candidate and observer in threes

TOOLS

Copilot Chat | your interview kit from Activity 5 | candidate card and observer sheet

OUTPUT

A practice log with Copilot's feedback on your interviewing, and a live role play with observer notes.

Practice Exam

The screenshot shows a web browser window with the URL <https://exams.tertiaryinfotech.com/>. The page title is "Microsoft Copilot for HR Recruitment - Practice Exam". Below the title, it says "Multiple attempts | Instant feedback | Same K1-K6 coverage as the WA". There are three questions listed in a list box:

- Q1 Which control must be applied before prompting with a CV?
- Q2 A rater has no evidence for a competency. What is recorded?
- Q3 Identify the defect in this interview question.

HOW TO USE IT

- 1 Open the practice exam before the written assessment.
- 2 Attempt it closed-book to find your real gaps.
- 3 Review the slides and Learner Guide for each miss.
- 4 Re-attempt until you are consistently correct.
