

Activity 10: Capstone: End-to-End AI-Assisted Hiring Round

Duration: 45 minutes **Roles:** Interviewer, Candidate Alex Lee, assessor/observer

Scenario

FutureTech Solutions interviews Alex Lee for Senior Data Analyst. You run the full loop with Copilot support and stay accountable for every decision.

Goal and output

A complete evidence pack: screening note, approved guide, transcript, scores, feedback and an AI-oversight reflection.

Tools and data boundary

Copilot Chat, the four course agents, your own agent from Activity 6

Use only supplied de-identified training data. Do not enter live candidate data, employer-confidential information or production API keys.

Detailed step-by-step

Step 1

Screen with the Candidate Screener and record the shortlist decision and the evidence behind it.

Step 2

Generate and personally review the interview pack, removing anything unsafe, irrelevant or unanchored.

Step 3

Run a 15-minute interview with consistent core questions, active listening and neutral probes.

Step 4

Close professionally with candidate questions and next steps.

Step 5

Score independently against the A1-A3 checklist, then use the Evidence Scorer to challenge your reading.

Step 6

Draft and deliver concise candidate feedback.

Step 7

Write the oversight reflection: where GenAI helped, where it was wrong, and what human judgement changed.

Step 8

Name the accountable human decision owner for the outcome.

- capstone_evidence_index.txt
- ai_oversight_reflection.txt

Recovery and troubleshooting

If the tool output is missing, generic, biased or ungrounded, preserve the input and output, mark the item as rejected, revise one constraint at a time, and regenerate. If access fails, use the supplied templates and local/demo mode; do not substitute live candidate data.

Completion criterion

A complete evidence pack: screening note, approved guide, transcript, scores, feedback and an AI-oversight reflection.
