

Activity 10: Capstone AI-Assisted Interview Role Play

Duration: 45 minutes **Roles:** Interviewer, Candidate Alex Lee, assessor/observer

Scenario

FutureTech Solutions interviews Alex Lee for Senior Data Analyst using a reviewed GenAI-assisted guide.

Goal and output

A complete role-play evidence pack: guide, interview, score record, candidate feedback and interviewer reflection.

Tools and data boundary

HR Question Generator, AI Interview Practice Lab, approved guide, A1-A3 checklist

Use only supplied de-identified training data. Do not enter live candidate data, employer-confidential information or production API keys.

Detailed step-by-step

Step 1

Prepare the structured guide and remove unsafe, irrelevant or unanchored AI-generated items.

Step 2

Conduct a professional opening and manage a 15-minute interview with consistent core questions.

Step 3

Use active listening and neutral probes to gather specific evidence.

Step 4

Close with candidate questions and clear next steps.

Step 5

Score independently against the A1-A3 observation checklist and cite evidence.

Step 6

Give concise feedback on strengths and improvement areas.

Step 7

Reflect on how GenAI helped, where it failed and what human judgement changed.

Recovery and troubleshooting

If the tool output is missing, generic, biased or ungrounded, preserve the input and output, mark the item as rejected, revise one constraint at a time, and regenerate. If access fails, use the supplied templates and local/demo mode; do not substitute live candidate data.

Completion criterion

A complete role-play evidence pack: guide, interview, score record, candidate feedback and interviewer reflection.
